

Optometry Department

UCSD Student Health Service

Mission

To facilitate the retention, academic advancement and graduation of UCSD students by maintaining their maximum eye health.

How We Serve You

The SHS Optometry Department has been serving UCSD students since 1975. Services include eye exams, glaucoma screening, visual field testing, slit lamp examination and refraction, and contact lens exams.

Student Program

We provide part time employment opportunities for UCSD students.

Volunteer Program

Students interested in gaining experience in the optometry field can become volunteers in our clinic. New volunteers are recruited each academic quarter.

Internship Program

We offer an educational program for pre-optometry students interested in gaining practical experience in all areas of the clinic.
