NOTICE OF PRIVACY PRACTICES

**UNIVERSITY OF CALIFORNIA, SAN DIEGO
STUDENT HEALTH SERVICES**

**THIS NOTICE DESCRIBES HOW HEALTH INFORMATION ABOUT YOU MAY BE USED
AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION.**

PLEASE REVIEW IT CAREFULLY.

UCSD Student Health Services

UCSD Student Health Services (SHS) is one of the health care components of the University of California (UC). UC health care components consist of the UC medical centers, the UC medical groups, clinics and physician offices, the UC schools of medicine and other health professional schools, departments engaged in clinical care, the student health service areas on some campuses, employee health units on some campuses, and the administrative and operational units that are part of the health care components of the University of California.

Our Pledge Regarding Your Health Information

UCSD SHS is committed to protecting medical, mental health and personal information about you ("Health Information"). We are required by law to maintain the privacy of your Health Information, provide you information about our legal duties and privacy practices, and inform you of your rights and the ways in which we may use Health Information and disclose it to other entities and persons.

How We May Use and Disclose Health Information About You

The following sections describe different ways that we may use and disclose your Health Information. Some information, such as certain drug and alcohol information, HIV information, genetic information and mental health information, is entitled to special restrictions related to its use and disclosure. Not every use or disclosure will be listed. All of the ways we are permitted to use and disclose information, however, will fall within one of the following categories. Other uses and disclosures not described in this Notice will be made only if we have your written authorization.

For Treatment

We may use Health Information about you to provide you with medical and mental health treatment or services. We may disclose Health Information about you to doctors, nurses, technicians, students or other health system personnel who are involved in taking care of you at UCSD SHS. For example, a doctor treating you for a broken leg may need to know if you have diabetes because diabetes may slow the healing process. A doctor treating you for a mental condition may need to know what medications you are currently taking, because the medications may affect what other medications may be prescribed to you. We may also share Health Information about you with other non-UCSD SHS providers. The disclosure of your Health Information to non-UCSD SHS providers may be done electronically through a health information exchange that allows providers involved in your care to access some of your UCSD SHS records to coordinate services for you.

For Payment

We may use and disclose Health Information about you so that the treatment and services you receive at UCSD SHS or from other entities, such as an ambulance company, may be billed to and payment may be collected from you, an insurance company or a third party. For example, we may need to give information

to your health plan about surgery or therapy you received at UCSD SHS so your health plan will pay us or reimburse you for the surgery or therapy. We may also tell your health plan about a proposed treatment to determine whether your plan will pay for the treatment.

For Health Care Operations

We may use and disclose Health Information about you for our business operations. For example, your Health Information may be used to review the quality and safety of our services, or for business planning, management and administrative services. We may contact you about alternative treatment options for you or about other benefits or services we provide. We may also use and disclose your Health Information to an outside company that performs services for us such as accreditation, legal, computer or auditing services. These outside companies are called "business associates" and are required by law to keep your Health Information confidential. We may also disclose information to doctors, nurses, technicians, medical and other students, and other UCSD SHS personnel for performance improvement and educational purposes.

Appointment Reminders

We may contact you to remind you that you have an appointment at UCSD SHS.

Fundraising Activities

We may contact you to provide information about UC San Diego Health-sponsored activities, including fundraising programs and events. We may use contact information, such as your name, address and phone number, date of birth, physician name, the outcome of your care, department where you received services and the dates you received treatment or services at UC San Diego Health. You may opt-out of receiving fundraising information for UC San Diego Health by contacting the toll-free number 1-800-588-2734 or by email optout-hsdev@ucsd.edu.

Hospital Directory

If you are hospitalized, we may include certain limited information about you in the hospital directory. This is so your family, friends and clergy can visit you in the hospital and generally know how you are doing. This information may include your name, location in the hospital, your general condition (e.g., fair, stable, etc.) and your religious affiliation. The directory information, except for your religious affiliation, may also be released to people who ask for you by name. Your religious affiliation may be given to members of the clergy, such as ministers or rabbis, even if they don't ask for you by name. You have the opportunity to limit the release of directory information by telling UC San Diego Health at the time of your hospitalization.

Our disclosure of this information about you if you are hospitalized in a psychiatric hospital will be more limited.

Individuals Involved in Your Care or Payment for Your Care

We may release medical information to anyone involved in your medical care, e.g., a friend, family member, personal representative or any individual you identify. We may also give information to someone who helps pay for your care. We may also tell your family or friends about your general condition and that you are in the hospital.

Disaster Relief Efforts

We may disclose Health Information about you to an entity assisting in a disaster relief effort so that others can be notified about your condition, status and location.

Research

The University of California is a research institution. We may disclose Health Information about you for research purposes, subject to the confidentiality provisions of state and federal law. All research projects involving patients or the information about living patients conducted by the University of California must be approved through a special review process to protect patient safety, welfare and confidentiality.

In addition to disclosing Health Information for research, researchers may contact patients regarding their interest in participating in certain research studies. Researchers may only contact you if they have been given approval to do so by the special review process. You will only become a part of one of these research projects if you agree to do so and sign a specific permission form called an Authorization. When approved through a special review process, other studies may be performed using your Health Information without requiring your authorization. These studies will not affect your treatment or welfare, and your Health Information will continue to be protected.

As Required By Law

We will disclose Health Information about you when required to do so by federal or state law.

To Prevent a Serious Threat to Health or Safety

We may use and disclose Health Information about you when necessary to prevent or lessen a serious and imminent threat to your health and safety or the health and safety of the public or another person. Any disclosure would be to someone able to help stop or reduce the threat.

We may disclose your Health Information to a government authority that is permitted by law to receive reports of abuse, neglect or domestic violence.

Health Oversight Activities

We may disclose Health Information to governmental, licensing, auditing and accrediting agencies as authorized or required by law.

Lawsuits and Other Legal Proceedings

We may disclose Health Information to courts, attorneys and court employees in the course of conservatorship, writs and certain other judicial or administrative proceedings. We may also disclose Health Information about you in response to a court or administrative order, or in response to a subpoena, discovery request, warrant or other lawful process.

Law Enforcement

If asked to do so by law enforcement, and as authorized or required by law, we may release Health Information:

Psychotherapy notes have additional protections under federal law and most uses or disclosures of psychotherapy require your written authorization.

Marketing or Sale of Health Information

Most uses and disclosures of your Health Information for marketing purposes or any sale of your Health Information would require your written authorization.

Other Uses and Disclosures of Health Information

Other uses and disclosures of Health Information not covered by this Notice will be made only with your written authorization. If you authorize us to use or disclose your Health Information, you may revoke that authorization, in writing, at any time. However, the revocation will not be effective for information that we have already used and disclosed in reliance on the authorization.
